PREFACE.

For the fifty-ninth time the Holbrook Newark City Directory is presented to the citizens of this city, and following the law of constant progress, it is more comprehensive and inclusive than ever before.

As the city grows so the Directory grows correspondingly. Last year's volume contained about sixty-four thousand names. This year have been added some seven thousand names, and taking the total on the basis of one name to three inhabitants, it shows the population of the city to be 214,800.

Notwithstanding this increase in the number of names, an unhandy increase in the size of the volume has been avoided by the use of a better quality and harder finished paper, thus keeping the bulk of the volume smaller, though including some seventy more pages than last year's edition

Absolute accuracy is, of course, unattainable. yet the publishers hope and believe that this volume will be found substantially accurate Every endeavor that care and experience could suggest has been made to insure this result. Especial difficulties have beset the canvassers in the various and large foreign elements that have, of late years, made this city their home, many of these foreign residents refusing to give information, under the impression that the canvassers were tax officers. Nevertheless, it is believed that most of these difficulties have been overcome. The part devoted to the inhabitants of Harrison and Kearny has been printed on a tinted paper, thus making it more easy of recognition.

Attention is called to the new map of the city issued with this volume It will be found a great improvement over former maps. It is printed on firmer and heavier paper, and contains all the streets of the city as they actually exist, and not as they are laid out on paper Travelers through the city will appreciate this. The Wards are divided and colored according to the present existing divisions, disregarding the old division into fifteen wards, and the distance circles from the centre of the city have been made half miles instead of quarter miles. Harrison and Kearny have also been included on the map, and the limits extended to the Bergen County line on the north.

The change in the locale of the Directory Company, giving more room and facilities, has allowed an increase in the collection of directories of other cities, which are always available for reference by our patrons. The value of this Bureau of Reference increases constantly as it becomes more widely known. The demand for the Directory throughout the country this year has been greater than ever before, and its value to our patrons thereby greatly enhanced.

The addition to the circulation of the Directory this year has been phenomenal. It is greater than it has ever been in any one previous year, and as large as the average of any three previous years. Our advertisers will be pleased to learn of this great increase in circulation.

The object of this institution is to reform boys and girls committed by the Police Justices, for truancy and such conduct as indicates they are beyond the control of parents. It is a public institution, supported by the city, taking children viciously inclined, and inuring them to habits which tend to lives of usefulness. The Home is in no sense like a prison, but the intent is to make it what its name implies, a "home" for wayward children
